

# REPORT

TO THE GOVERNOR  
TERRITORY OF HAWAII

BY THE

SUPERINTENDENT OF PUBLIC WORKS

FOR THE YEAR ENDING JUNE 30, 1943

and specifications of existing structures, etc., information obtainable nowhere else except in the Department's files. The request for highway maps has been especially heavy.

### AIRPORTS

Immediately after December 7, 1941, the control and operation of all Territorial airports was taken over by the armed forces for the duration and six months thereafter. Under these conditions extensive improvements have been made by the Army and Navy on the following airports: Hilo airport, Maui airport, Molokai airport and John Rodgers airport.

Dredging operations on the long planned Keehi Lagoon sea-plane base were commenced in October, 1941, and will soon be completed. Dredged material from these operations proved to be of great benefit to the war effort.

Respectfully submitted,

(s) D. F. BALCH  
Superintendent of Public Works.
