KIPAPA AIRFIELD, Operational hazards. An informal discussion of
the operational hazards at Kipapa Airfield was carried
on.

Mr. Holloway introduced Colonel Rasmussen, Pacific Air
Command, Wheeler Field. Colonel Rasmussen explained
that the large formations of aircraft from Wheeler
Field have had several close encounters with light
planes over the Kipapa area.

During the discussion which followed, Mr. Holloway
said that he had made a study of the matter and ex-
pressed the belief that a certain amount of hazard
existed.

It was pointed out that if this field were abolished,
activities of the fixed base operators would be greatly
curtailed.

THE MEETING WAS CALLED TO ORDER at this point with the arrival
of a Commissioner, a quorum having been formed.

Mr. Bolles moved that Mr. Holloway be appointed to
investigate the matter further and prepare a report
which would include a coordinated plan satisfactory
to both the Armed Forces and the operators, in which
areas would be designated for the use of each. Motion
seconded by Mr. Anderson and unanimously carried.

ADVERTISING PROPOSAL, Honolulu Airport: Mr. Bolles explained that he had conferred with Messrs. Holst and Cummings of Holst & Cummings, Ltd., with regard to launching an advertising campaign to acquaint the public with the airport, its functions, etc. He said that Messrs. Holst and Cummings had offered their services in drawing up a concise plan along these lines. He then introduced Mr. Cummings.

Mr. Cummings stated that he believed there was an opportunity for some constructive publicity but felt it would be premature to suggest a budget until he had studied the matter further.

Commissioner Anderson asked that a report first be made, outlining the need for advertising; also that a survey of potentialities be made to ascertain whether or not the Commission had something to gain by spending its own money in this manner.
PUBLIC RELATIONS POSITION: In connection with the Advertising Proposal outlined above, the Director reported having appointed the Assistant Director to work in this capacity, in conjunction with his other duties as Assistant Director.

ADVERTISING PROPOSAL: The Commission instructed Mr. Black to study and prepare, for presentation at the next Commission meeting, a report on the matter.

 PARKING LOT, HONOLULU AIRPORT: The Director outlined negotiations previously entered into with Mr. E. A. Flick for the parking lot on the Hawaiian Airlines side of Honolulu Airport. He said that there had been considerable criticism regarding the present operation of the parking lot. He further explained that a letter had been received from Hawaiian Airlines, stating that they were willing to keep the parking lot open to the public, free of charge. The letter from Hawaiian Airlines was then read.

Mr. Honda moved that the verbal agreement with Mr. E. A. Flick be terminated as of December 31, 1948 and that 12% of gross revenue monthly, retroactive to March 31, 1948 shall be paid as rental for this lot; also that the matter of Hawaiian Airlines' proposal be turned over to the Director for further study and a report to the Commission. Motion seconded and unanimously carried.

POLICY RE NON-AERONAUTICAL ACTIVITIES: The following policy relative to rental of space for non-aeronautical activities on airports was adopted, on motion by Mr. Anderson, seconded by Mr. Bolles and carried:

That each tenant occupying space on a month-to-month or revocable license basis on all Territorial airports for purposes other than an aeronautical activity will be required to make a cash deposit in the form of a bank check or a bond issued by a local bonding company in the amount equal to six months' rental to assure the Commission of the following points:

1. Clean-up and dispose of any refuse or material left by the tenant;
2. To repair any damage done to buildings or Territorial property;
3. To liquidate any account which may be delinquent at the termination of the rental period;

and provided, further, that in the event the tenant has not complied with all of the above items to the satisfaction of the airport management at the termination of the rental period such cost as may be incurred on the part of the Territory in connection with any of these items will be deducted from the amount of the deposit and the balance, if any, will be returned to the tenant.

KAILUA (OAHU) AIRPORT: The Director reported that he had been approached with the idea of the Territory's acquiring this airport.

After discussion, the Director was appointed to make a detailed study of the matter—contemplated length of lease to be for a period of ten years—on motion by Mr. Anderson, seconded by Mr. Honda, and carried.
